

PROJECT PROFILE

## Crocus Hill Tudor

Project Type: Remodel

Location: Saint Paul

Working within the original footprint, we remodeled the entire house and provided full interior design services to reawaken the home's historic charm. New details include art glass windows, custom-designed cabinetry and five new bathrooms, including one in what was once a sleeping porch. Furnishings and finishes in the formal areas fit the Tudor aesthetic, while in the bedrooms and other more private spaces, a more casual, modern design prevails.
