## Our specialty:

Whether the project is a renovation or new construction, historic or modern, our designs blend elements of timeless residential architecture with the necessary amenities for modern life. We pride ourselves on getting everything right, down to the smallest detail. That approach, more than any specific aesthetic or era, is our true specialty.

## Our history:

David Heide founded the Studio in 1997. With both architecture and interior design departments, our Studio serves clients with an integrated process, from initial meeting to project completion. We have been honored with over 20 ASID Awards—including Best In Show, 2009—a Minnesota Chapter AIA Honor Award, and numerous other local and national awards.

## Our philosophy:

Our expertise is not ego; our recommendations are never rules. Our mission is to help clients understand their dreams, define the program for their project, and respond with a design that exceeds their expectations. We aim to meet the client's needs at every step in the design process with the highest level of service and quality.

## Every home needs...

to respond and adapt to the habits and sensibilities of its owners over time. We prefer to think of houses as works in progress rather than artifacts. A well-designed house will function well into the future, while retaining its essential character and vitality.

**INSIDER INSIGHT** "Listen to your house! Let it inform you about scale, proportion, massing, and style. Don't try to make it into something it's not."
